New Listings

In 2015, Airbnb reached the **highest** number of new listings. 2016 and 2017 saw a restraint also due to a tightening in local regulations. Despite this, Airbnb became **profitable** in the second half of 2016, and 2017 marked the first full year of generating income. From 2018, there was a new growth stopped in 2019 by the **COVID-19** pandemic.

Airbnb Market & Listing Performance Dashboard

Market share by city

Paris, NYC, and Sydney account for almost half of the total listings and 48% of total reviews.

Paris is the city with the most listings and reviews. A possible driver is the prices for hotel rooms being twice as much as Airbnb!

Hotel room	\$800
Entire place	\$673
Shared room	\$580
Private room	\$462

Airbnb Market & Listing Performance Dashboard

Review Frequency

Reviews provide information about the **customer order frequency**.

Most, of the customers wrote a review only once.

98.8% of customers did so **3 times or less**.

One customer wrote **283 reviews**: last two on 13-Oct-20, of two listings in Bangkok. (Data error or globe-trotter?)

Ratings

Paris and Rome dominate review share from **April to August**, reflecting peak European summer travel

New York saw an increase in November and December during the holiday season.
